## 6.2 - Strategy Development and Deployment

### 6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

Planning and effective strategy to implement this planning is an integral part of any higher education institution. Various Annual Committees are constituted for the implementation of various policies under the supervision of the Principal of the college. The college continuously upgrades its infrastructure and capacity for better teaching-learning environment. As per the perspective plan, the District Level Science Exhibition was organized. Teams from various colleges of the District participated in this Exhibition. Models prepared by the participating students showed their genuine interest in Science based activities. Through the Exhibition, it was stressed and shown that science has made our life simple and comfortable and how it has become imperative in our day to day life. A committee of the outside experts as judges was also constituted. Codes were given to the participating teams so that their identities are not disclosed. The judges inspected, analyzed and evaluated the models presented in the Exhibition. They asked questions from the student about the functioning and utility of the models showcased there. The students and staff of the college also got satisfied their scientific queries. The Department of Higher Education Haryana issues regulations, policies, framework and directs the Principals of Govt. Colleges for compliance from time to time to carry out the administrative activities of the college as per the needs and requirements. Being governed by the Govt of Haryana, the college has no direct recruitment, transfer and promotional policies. These are done at the Govt./ Directorate level. The affiliating university issues guidelines regarding student intake capacity, admission schedule, examination forms schedule, schedule of submission of internal assessment and practical awards, date sheet of theory and practical exams, declaration of results and issuance of mark-sheets and degrees. Academic calendar is designed at the onset of each academic session as per the directions of affiliating university. ### 6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Quality control and continuous improvement are the key features of a dynamic institution. The college Principal has constituted an Internal Quality Assurance Cell (IQAC) in the college for the regular assessment and maintenance of internal quality. This cell has contributed significantly in enhancing the quality of higher education in the college.

Teaching-learning quality has been improved a lot. Time to time meetings of IQAC are held to review and assess the steps taken to improve quality of education in the institution. IQAC also assesses the works of individual teachers and recommends their cases for higher scales and promotion. It also evaluates the reports submitted by teachers and academic committee. Quality upgradation is a gradual process and the IQAC of the college has been striving hard in this direction since its inception. As a result of the IQAC recommendations, many initiatives have been implemented to enhance the overall academic environment of the college.

On the suggestion of the IQAC, the college upgraded its library and sports ground to cater to the needs of the students. Labs have also been refurbished as per the need.

Again on the recommendation of the IQAC, the college regularly emphasized on the need of creating smart classrooms and upgradation of the computer labs. 10 smart classrooms were updated during this session.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

Learning is a gradual process. With the introduction of Information Technology, we cannot ignore its role in the teaching-learning process. New and newer methods and methodologies have to be adopted to be relevant in modern times. The college is an institution meant for imparting higher education to the students. Higher Education, as it speaks itself, is meant for some

specialization. Every student needs individual attention of the teachers. In this present age of Science and Technologies, we cannot grow and progress at the desired pace without using technology. Technology has become indispensable in all spheres of life, specifically in teaching- learning field. To make teaching-learning more effective, the IQAC has reviewed and implemented many new initiatives. The two prominent examples of these reviews are "ICT Enabled Infrastructure" and "Addition in staff strength". Earlier, it was more or less traditional method of classroom teaching. The teachers relied on the text books available and they interacted and discussed with the students. But now with the coming of technology, classroom teaching has undergone a total change. The teachers as well as the students have access to internet based technology. Ten classrooms have been upgraded as smart classrooms with overhead projectors and smart board. Teachers resort to various teaching apps that make teaching more effective and interesting for the students. Furthermore, students can have access to these apps even at their respective homes. Their dependence on traditional classroom teaching has dramatically reduced.
